

## Proware won the CCUA Awards

Proware's china branch - Howare has received three awards from CCUA (China Computer User Association). The winning companies are at the top of competition in their respective. These Awards provide users the opportunity to determine which IT products best enable their organizations to collect, analyze and deliver information wherever and whenever it's needed to improve business processes and performance. These awards also further exemplifies why more IT professionals rely on Proware storage management software to efficiently manage their complex networked storage environments.

Howare is awarded the honor of the Best Trustworthy Corporation Award.
