

Proware has been awarded the most prestigious certificate for Quality Management System Standard: ISO 9001: 2000

Taipei, December 15th, 2000, Proware has been awarded the most prestigious Award for Quality Management System Standard: ISO 9001: 2000. Proware Technologies Corp., a leader in the data storage marketplace, has been developing and supplying high availability, drive ready storage solutions for the channel and OEM's in the Windows & open systems markets. Proware's products provide storage products for virtually all areas of the storage market.

Det Norske Veritas is an independent foundation working with the objective of 'safeguarding life, property and the environment'. It is a great honor for Proware to receive this Award from DNV. This award will definitely be a driving force for Proware people to further improve our products and service to our valued customers.

Proware designs, manufactures and customizes products and services to customer requirements and offers an extensive selection of data storage. Proware's products allow its channel and OEM partners to build and market reliable, high availability and profitable business continuous class storage solutions.
